Report on "Industrial Visit to Hutti Gold Mines Company Limited, Hutti "

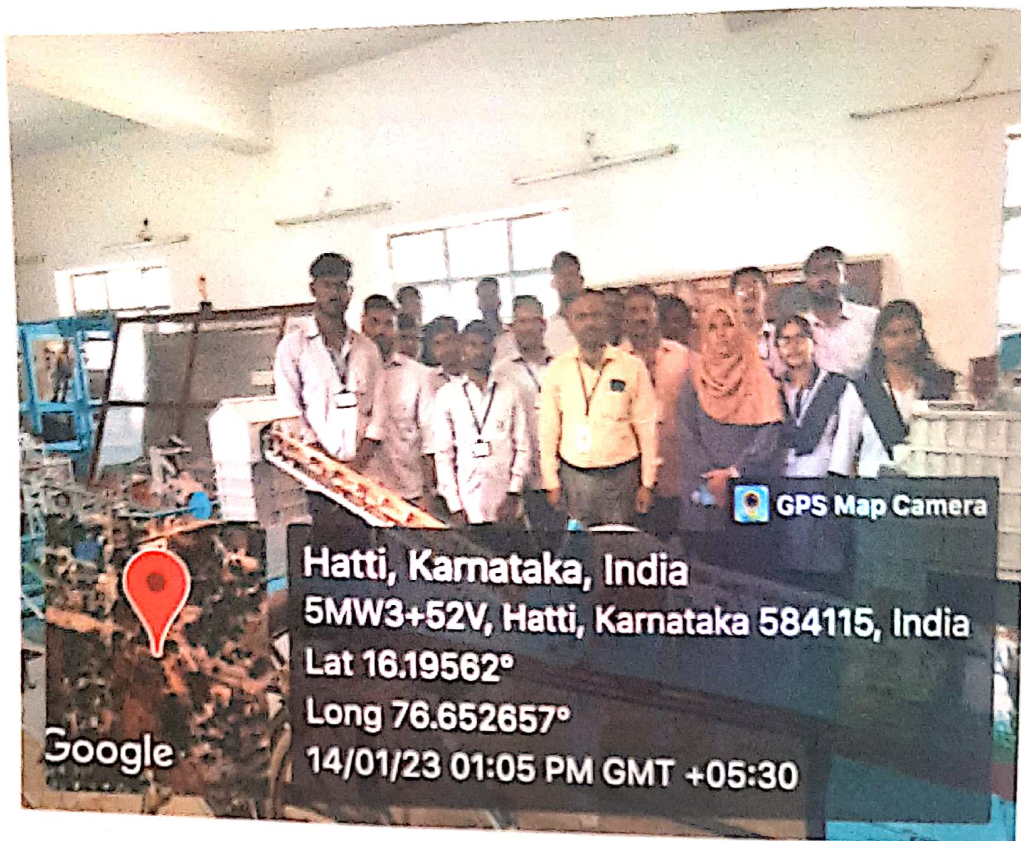

IIC Cell of H.K.E. Society's S.L.N. College of Engineering visited Hutti Gold Mines Company Limited on 14-01-2023 as part of collaboration activity Exposure and Field visit for problem identification.

The visit was arranged students from 2nd and 3rd year BE Mechanical Engineering department. Total of 41 (36 students + 05 faculty) were among the list who were benefitted with the visit.

We started the visit at 8.30 am in the morning and reached the destination at 10.00 am. We were received by the in-charge engineer and took us for a tour. It included: foundry division, Workshop, Mallappa shaft, Central Shaft, Carbon in Pulp Plant & chemistry R&D. During the tour, the incharge engineer explained us the entire process carried out during extraction of Gold. Presently, the company is still extracting using conventional methods. But as per our view, we felt the process can be automated to speed up the process. Present extraction of Gold is around 4 to 5 kgs per day.
